

Our work this half term will focus on all areas linked to our history focus – The Savage Stone Age! We will be learning about the first humans and following in their footsteps as they learnt how to use tools and farm. We will also explore what was important to them and what we can learn about them from what they left behind. There are many topic areas that link in with in with this very nicely. Here are a few of them: discovering how different types of rocks and fossils are formed and what they tell us, making tools and cave art, writing letters, instructions, ...and so much more!

We will be using a variety of books to help us build on our knowledge of the Stone Age through to the Bronze Age, some of which are; Stone Age Boy, Stone Age Bone Age, How to Wash a Woolly Mammoth and UG. If you have any books or items that you think link well with the topic please bring them in for us to share. Thank you. 😊

Our homework task this term involves a creative project based on this period in history. Feel free to pick an area that interests you to do your research and help you create an interesting and detailed piece of homework. You could choose anything, but here are a few ideas to get you started:

An information booklet, informative poster, computer presentation, character profile of one of the first humans, news report on an event during that time, or a model of their houses/tools.

Choose something **NEW** that you will want to complete yourself. It is your choice so, enjoy! 😊

Homework is due in on the last Monday of this half term (11th December 2017) that way we can share them all with plenty of time.

Many thanks,

Miss Carter and the Year 3W team.
